Introduction

What is LumiSight Campus?

LumiSight Campus is a self-screening platform that supports the well-being of parents, students, employees, and visitors in the San Marcos Unified School District. It was developed by DataHouse Consulting, a Hawaii company dedicated to supporting our communities through innovative technology solutions.

How does LumiSight Campus work?

LumiSight Campus is easy to use every day. Parents, students, employees, and visitors log in to a web application and perform a quick check-in. They immediately receive guidance on whether they can enter campus or stay home that day.

How do parents and employees access LumiSight Campus?

Parents and employees receive an email with their log in username, one-time password, and a link to the web application. They will reset their password when they log in for the first time and complete their first check-in.

Parents, employees, and visitors can go to smusd.campus.lumisight.com to log in to their accounts.

How do I check in?

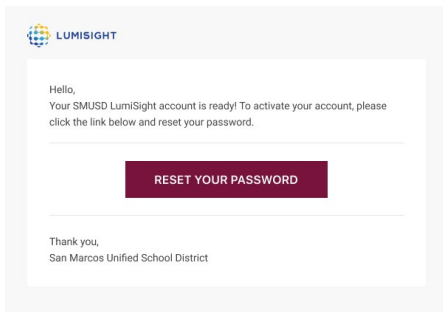

Follow the steps in this guide to set up your account and perform your first check-in. You need to check in every day before you arrive on campus.
